

INTEGRATED DEVELOPMENT PLAN/BUDGET 2006/07

MTREF

PURPOSE:

To seek council approval of the 2006/07 MTREF budget.

BACKGROUND:

On 14 December 2005 a draft budget was tabled to council. Thereafter, extensive consultations had taken place with stakeholders. Stakeholders who attended the meeting included members of the community, representatives from youth organisations, agriculture, business, mining, Traditional leaders and healers.

Outcomes of the consultative process:

The meetings were well attended and 1152 representatives had signed the register. The consultative process had evoked the enthusiasm of communities in their participation in government programmes and has revealed the nature and extent of developmental challenges facing the municipality as a service provider. What was evident was that the IDP was responding to immediate community needs rather than long term planning.

The inputs from these consultative meetings were recorded and submitted for consideration and, if necessary, included in the IDP and budget.

Alignment with national, provincial and district priorities:

The priorities of the district were aligned with that of national and provincial which is the access to basic potable water for all by 2008, access to basic sanitation at RDP level by 2010, electricity to all households by 2012, reduce unemployment by half by 2014, economic growth of 6% by 2010, all schools and clinics have access to water and sanitation by 2007 and access to education and health care to all.

Strategic priorities:

The following key strategic priorities for the municipality shall provide direction to the planning and implementation process as well as to inform the operations of the whole organisation:

- Development of institutional capacity and efficient financial management geared towards efficient delivery of services;
- Facilitation of access to land to ensure sustainable land use management for the entire district;
- Maximisation of economic growth and development through developing local economic opportunities and facilitating community empowerment;
- Promote and implement social and development programmes;
- Fostering of community participation and ownership of municipal programmes through effective communication;

- Strengthen the co-ordination of governance structures and facilitate sound intergovernmental relations.

Local economic development and tourism:

The challenges facing the municipality are to build an increased prosperity for all residents, sustainable job and income generation and better distribution of wealth. In order to attain this objective it is imperative that people participate in the mainstream economy of the district. Programmes to be undertaken are:

Farmers support programme	R 500 000
LED Agency	R 500 000
District marketing and profiling	R 550 000
SMME support & development	R 500 000

Free basic services:

Due to the high unemployment level, the greater part of the population are indigents who rely on the free basic services. An amount of R 17 452 440 has been budgeted for the provision of such services.

Other services:

The following services have also been budgeted for:

Health services	R 3 750 000
Disaster management	R 2 110 000
Sports, arts and culture	R 1 000 000

Infrastructure investments:

The backlog in the number of households having access to potable water has reduced from 35.9% to 17.5%. The overall reduction in the number of households receiving water below prescribed minimum standard is 46 415. The number of households who receive water at minimum standards of service and above has increased by an impressive 66 084 households. Although there is a greater backlog in sanitation services, the district priority is to ensure that all its citizens have access to potable water by 2008 and access to basic sanitation at RDP level by 2010.

The following investments have been proposed to further reduce the backlog:
